

# SCANCUBE

## The mini studio for your e-business

Save time and money to create your photo products and 360° animations for your website, web applications, catalogs..

With ScanCube, "What I See Is What I Buy"

contact@scancube.com | phone : +33 1 58 53 52 52

Used to surf on multiple devices (computer, laptop, smartphone, tablet), consumers are attracted to rich and appealing information. 360° animations answer this need by enabling the consumer to manipulate any products using his finger or his mouse to view all details.

ScanCube, first European manufacturer of computer-assisted photo studios allows you to get in a few minutes your 360° animations in HTML, for an immediate use on your website.
